

Code the Secret Word

Word# _____

Instructions: You will need to plug the code in the Blockly for Dot and Dash app. You will need to start the robot at the starting square. From there, start each coding sequence from the last letter you landed on until the secret word is formed. For multi-word answers, use another sheet for each word.

- **Key: Movement of 20cm on Blockly App is about 1 square on the board.**
- **Rule: Write the letter that the robot mostly lands on (not always going to be exactly on the letter!**
